NOTES AND NEWS.

A complete report of the history, methods and results of psychological examining in the United States Army has been recently published in the *Memoirs of the National Academy of Sciences*, Volume 15, 1921. The report is edited by the Lieut. Col. Robert M. Yerkes, Chief of the Division of Psychology, as an official document for the Surgeon General of the Army. It consists of three parts bound in a single volume. Part I, presenting the official history of the development of the service and its activities during the war, is supplemented by reproductions of all of the printed materials devised and used in conducting psychological examinations. Part II includes a complete account of the preparation of methods, their characteristics, and their evaluations as practical procedures. In Part III the results of examining are summarized. The entire report may be obtained from the Superintendent of Documents, Government Printing Office, Washington, D. C., at \$1.75 per copy. It appears in quarto size under the title *Psychological Examining in the United States Army*, and includes vi + 890 pages.

Professor A. J. Schneeweiss of the University of Pittsburgh has had his name changed to Snow. The article by him which appears in this issue is accordingly signed with the latter name.
